The Safety Pendant For Embracing Independence

Empowering Connected Care for Teams and Clients

FEATURES OF THE DEVICE:

Two-Way Calling

Instantly connect with designated contacts for real-time check-ins and reassurance.

SOS Alerts

Press the help button to send immediate alerts with live GPS location and key data.

Fall Detection Alerts

Automatic alerts notify contacts if a fall or sudden incident is detected.

Geo-Fence Notifications

Get notified if users leave designated safe zones, with real-time location tracking.

4G Connectivity

Reliable 4G coverage keeps users connected wherever they go.

Water-Resistant Design

Built to withstand everyday exposure to water for continuous protection.

All-in-One Device

No phone or extra hardware needed—simple, standalone safety and connection.

Flexible Wear Options

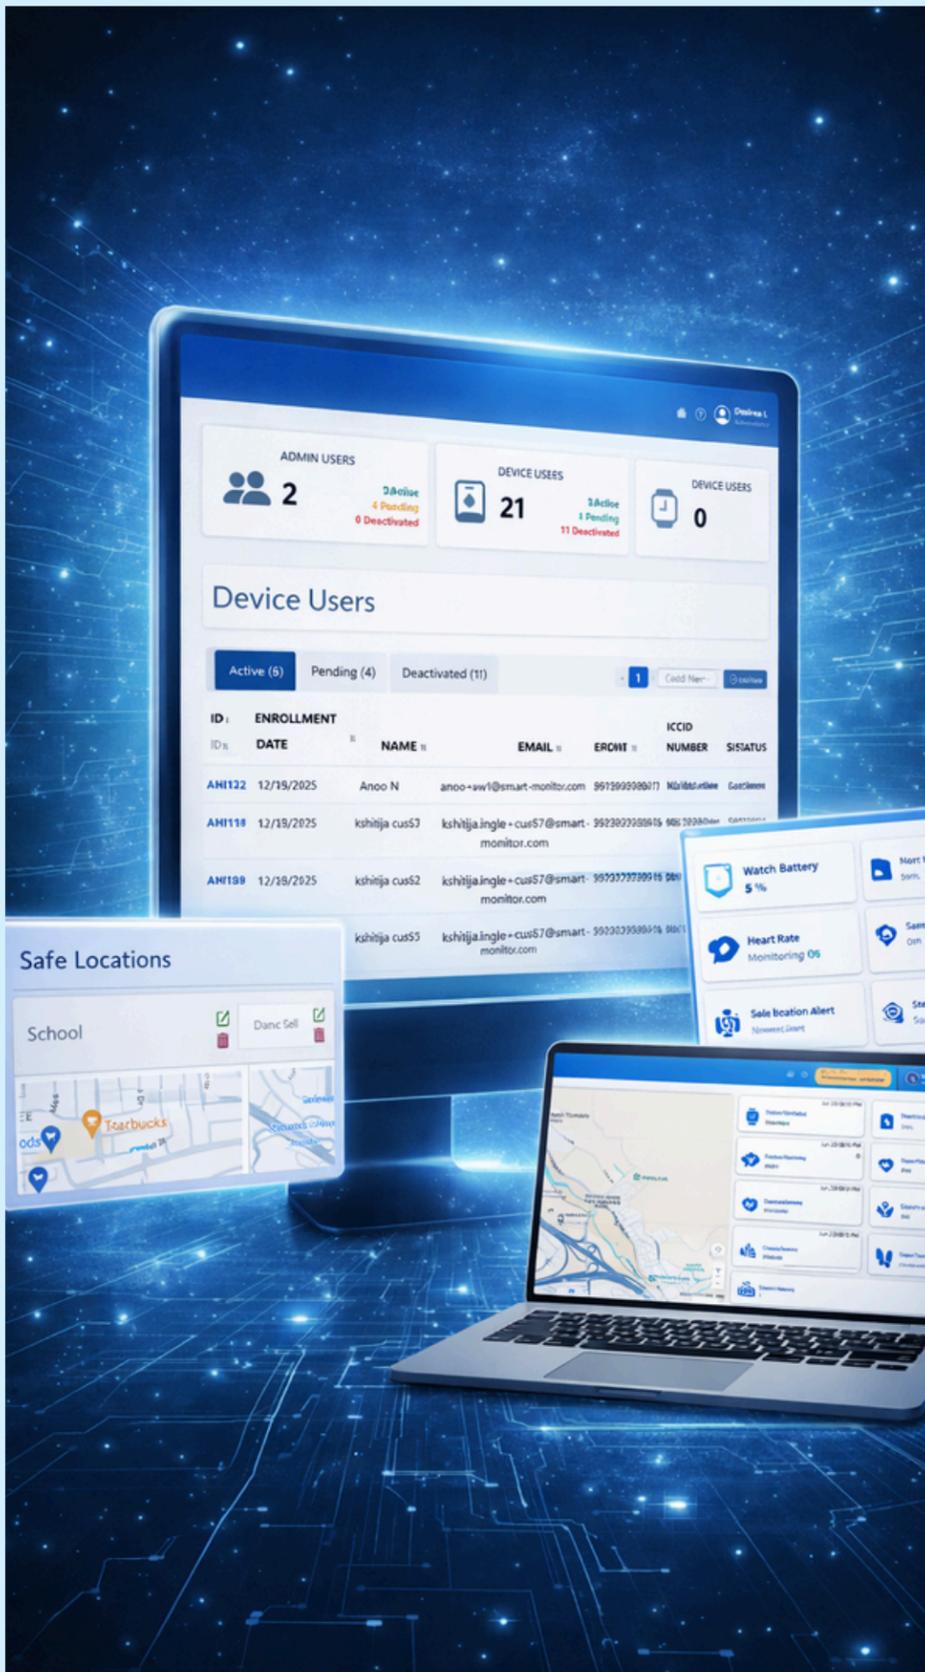

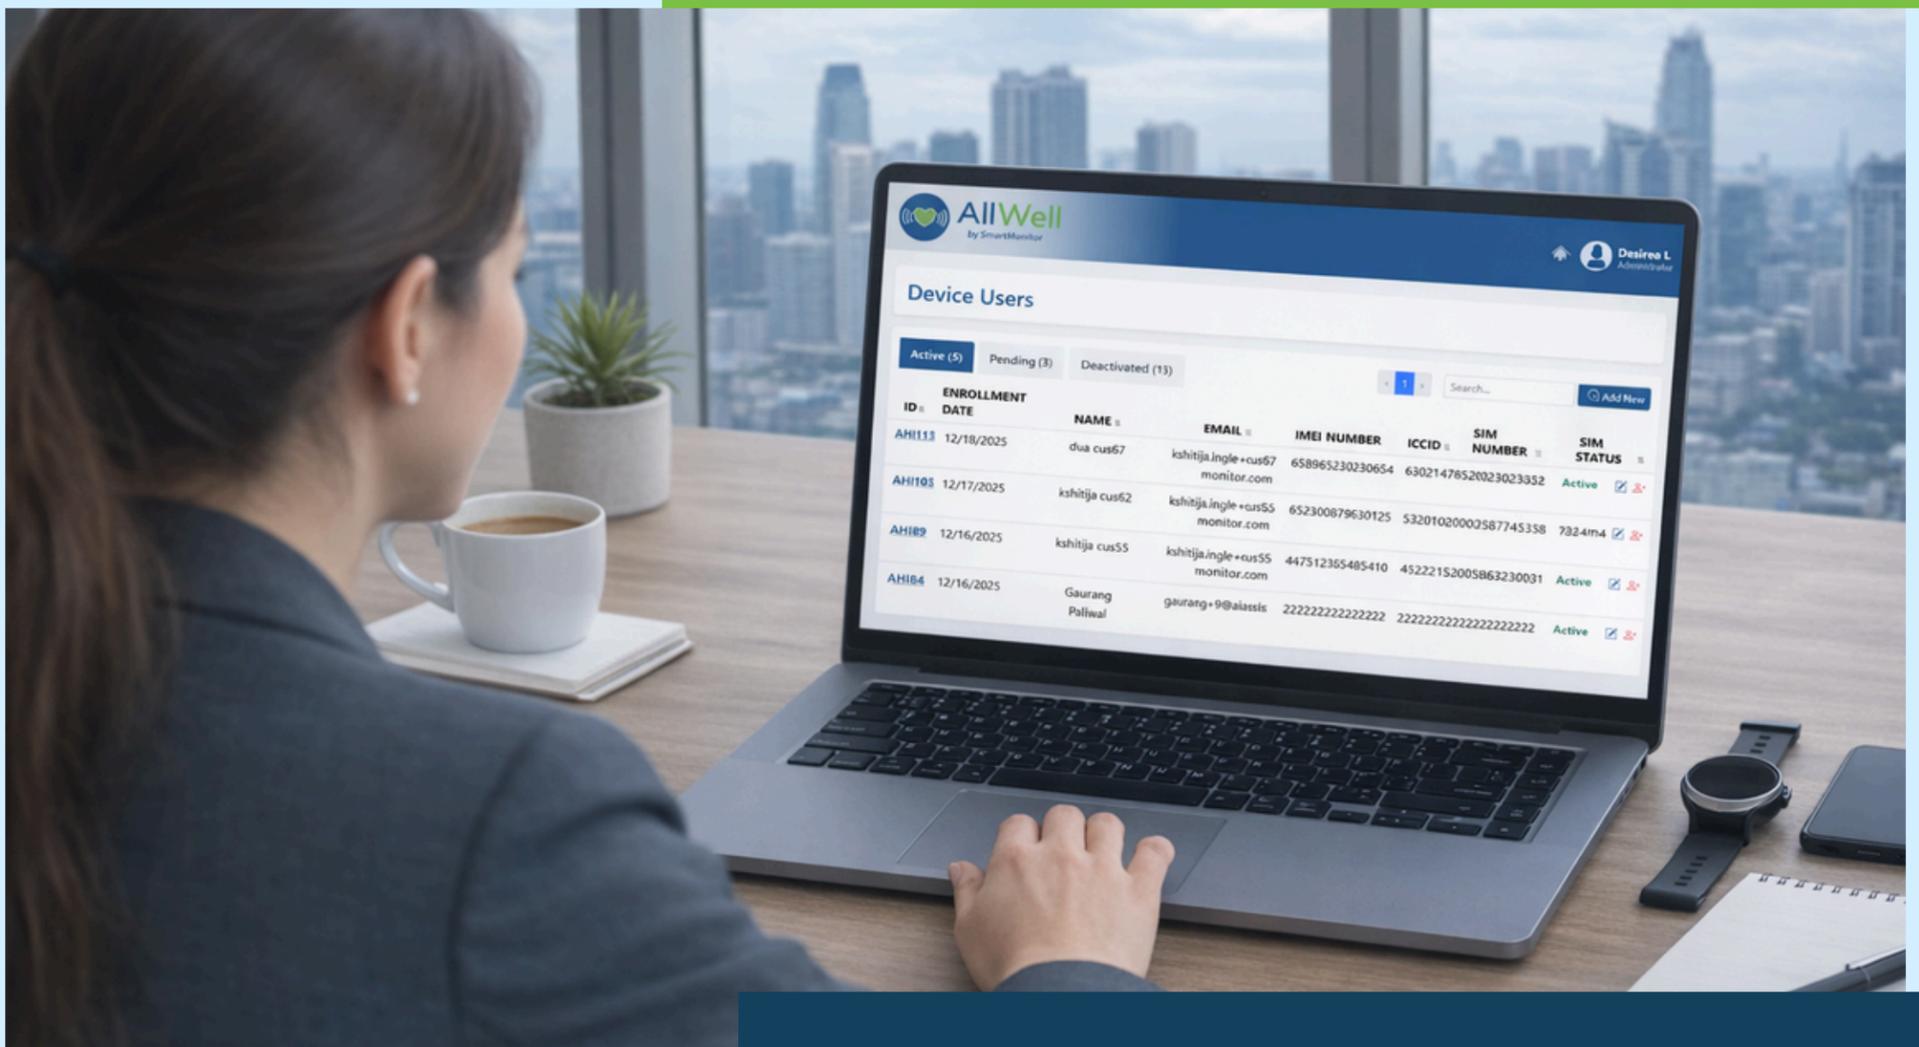

Available as a pendant or smartwatch to fit individual preferences and lifestyles.

FEATURES OF THE PORTAL:

Centralized Monitoring Portal

Manage all clients from one secure, easy-to-use platform, reducing time, tools, and operational overhead.

All-in-One Client View

Access organized client profiles in seconds, improving staff efficiency and response times.

Real-Time Updates

Quickly update contacts and alert settings with no delays and no duplicate work.

Health & Activity Insights

Monitor trends in activity, movement, and heart rate to support proactive, efficient care.

Custom Safety Settings

Easily manage geo zones and alerts tailored to each client, streamlining workflows across teams.

Downloadable Reports

Generate ready-to-use reports for documentation, compliance, and care coordination, saving time on manual tracking.

Fast, Efficient Setup

Tailored account configuration and onboarding to get teams up and running quickly with less overhead.
